PREPAREDNESS

During the warm weather you will perhaps require more Cooked Meats than at any other time. You are fully prepared if you have on hand some of our Cooked Ham, Luncheon Meat, Sausage, Jellied Ox Tongue Roll or Roast Leg of Pork.

These are extra choice goods and our line includes the best brands on the market.

The V. H. LOWDEN CO.,

PLAYLET WAS BIG SUCCESS

The Young People of St. Alban's Show Marked Ability in Their Presentation of an Amusing Comedy Farce.

St. Alban's (Coleman) must be heartily congratulated on possessing such a splendid organization as the Girls' Branch of the Woman's Auxiliary. Such expressions as "Fine," "How very good," "Who would have thought we had such talent in Coleman," were some of many complimentary remarks heard at the conclusion of the comedy playlet, "All on Account of Polly," which was put on in the opera house on Tuesday evening last by the above organization. All the nice things said of it were certainly deserved. Never before have the budding actresses and actors of Coleman made a better showing. Naturally, because all the participants were local boys and girls, the sympathies of the large audience were with them from the rise of the curtain.

In the cast of characters, T. Crawford represented Ralph Beverly, impetuous father; while Miss Lottie Morgan played the part of the harassed Mrs. Beverly. Misses Eura Ostrander and Elsa Disney acted as the daughters, Harry Watts as the stoney-broke son very much in love, B. P. McEwen as the Yankee creditor, Miss Lilly Deau as an Irish maid (who did she learn the blarney from?) Jack Graham as Harkins, the butler; Miss Dorothy Graham as manicurist; Miss Jane Apponen as hairdresser, Misses L. Harris and Nellie Carr as city visitors, May Muir and Maurice Goodeve as rag-a-muffins, Herb Williams as Peter Hartleigh (just ovah, bah jowve, don't you know), and last but by no means least, Miss Lizzie Johnson as Polly.

It would be unfair to eulogise any individual character when all were so good, but mention

In the role of amorous young man Harry Watts proved his ability.

should be made of the two children who acted their part so well as the waifs from Bush-town, and when little Maurice gravely informed everybody that his father worked every day regularly now it brought the house down. Miss Johnson gave a most winsome and charming characterization of Polly, and Harry Watts as her admirer proved his ability. The local hits were humorous.

Reference must also be made to the leading character of all, who, though not appearing on the stage, was still the foremost actor, namely, Mrs. F. G. Graham. Her splendid ability as general manager and instructor assured the success of the affair. Mrs. Graham's genial personality always wins for her the loyal and affectionate support of the

Pulling Down Burmis Plant

The plant of the Davenport Coal Co. at Burmis is being dismantled and most of it will be shipped at once to Wayne, Alta., and used on a new property that is being developed there. The machinery, etc., has been sold to the Western Commercial Co., and much of it has already been shipped.

E. Disney has secured the contract of pulling down the tippie and several buildings and shipping them to the above point, and will commence the work in a few days. It is expected that about fourteen buildings will be taken down in sections and shipped in this way.

The Burmis property was opened some six or seven years ago, but has been practically closed for the past two years. Wayne, where the plant is being shipped to, is up in the Drumhillier district.

Wounded By Same Shell That Killed Jack Gregory

Brother of Mrs. J. O. C. MacDonald, Who Enlisted From Coleman Early in War, Rendered Unconscious at the Time Private Gregory Met His Death.

Private Alex McLean, a brother of Mrs. J. O. C. MacDonald, was injured "somewhere in France" on July 28th by a bursting shell. This information has been received by his relatives here, and it is further stated that the same shell which rendered Pte. McLean unconscious, bursting both his ear drums, was the one that killed Pte. Jack Gregory and several other men. Pte. McLean's home is in Dominion, N.S., but he enlisted from Coleman, being one of the first batch of volunteers to leave here. He joined a Pincher Creek battalion, and in July of last year was one of a draft sent overseas from Calgary. He had been in the trenches from December 23rd.

In addition to having both his ear drums burst, the injured man is also suffering from severe shell shock. A photographeur of Pte. McLean will appear in a future issue.

Popular Young Couple Married

The marriage of John Tapson Jones (R.N.W.M.P.) of Brockton, to Miss Amy Disney, daughter of Mr. and Mrs. E. Disney, of Coleman, took place in St. Alban's church on Sunday morning, August 27th, at 8 o'clock, Rev. Herbert Clay officiating.

Miss C. Disney, sister of the bride, filled the position of bridesmaid in a very charming manner, while Mr. H. T. Watts assisted the groom. The bride was given away by her father, and the wedding march was played by Mrs. Disney. The bride was tastefully attired in a handsome suit of Russian green, and wore a very becoming hat of cream telt.

A large number of townspeople were present to witness the interesting ceremony, evidencing the high esteem in which both the bride and groom are held by their host of friends in Coleman. The honeymoon took the form of a brief camping journey to the west, and Mr. and Mrs. Jones are now at their home in Brockton.

Both of the contracting parties are well known throughout The Pass and the best wishes of a host of friends and acquaintances go with them to their new home. The Bulletin joins in wishing them every happiness and much prosperity.

See Cecil Gower's new advt.

Girls' Branch, of which she is the guiding spirit.

It is hoped that another such playlet will be staged at no distant date.

During the afternoon a most successful sale of work was held and tea was served from four to six o'clock. After the entertainment in the evening a very enjoyable dance was held.

Thanks is due Mr. Goodeve for his kindness in lending the necessary furniture for the stage.

Carbondale Golf Club Entertains

The Carbondale Country Golf Club served tea to about thirty visitors from Blairmore, Hillcrest and Bellevue on Saturday afternoon last, and a very pleasant time was spent on the links here. The members of the club and their guests spent the afternoon golfing and having a good time generally.

The Carbondale Country Golf Club, while it does not make

George Kellock explaining to the editor how he got right up to the eighteenth hole, then "fizzled" and fell down.

much of a bid for publicity, is in a flourishing condition and quite a number of the townspeople regularly avail themselves of the opportunity afforded to participate in this splendid game.

Unless citizens of West Coleman who are in the habit of sitting on their door-step watching their children try to see how close they can run in front of passing automobiles exercise a little parental authority, some of them one of these days will have the experience of seeing their offspring crushed to death beneath one of the cars. The police would do well to hand out a few warnings in that district. There is plenty of room for the children to play without getting in the middle of the road

TUBERCULAR SANATORIUM

Rocky Mountain Hotel Building at Frank Has Been Secured by the Military Hospital Commission—Dr. Porter in Charge

As stated in the last issue of The Bulletin, the military hospital's "command," the recently organized branch of the military hospital commission, has taken over the Rocky Mountain hotel at Frank as a sanatorium for soldiers afflicted with tubercular complaints.

This property stands at an elevation of about four thousand feet and is admirably adapted for the purpose intended. It is completely equipped with both sulphur and ordinary water baths, and fine broad verandahs open along the south side of the building. It has, in short, many features to commend it for the treatment of tubercular cases.

There is no sanatorium in Alberta or Saskatchewan except the one at Mountain View. There are 25 returned soldiers there already, 7 more coming immediately, and still others following later.

According to Lieut.-Col. Alfred Thompson, the percentage of soldiers returning suffering more or less from this dread disease is rather under than over what one might expect considering the army that Canada has recruited. It is proposed to make the Rocky Mountain sanatorium the centre for the treatment of tubercular soldiers in the three prairie provinces, and when it is ready for occupation it will be one of the very best sanatoriums in Canada.

The hotel was occupied for a while by part of the 102nd battalion and requires considerable renovation. The contract is being let for this work.

Capt. A. E. Porter, M.D., formerly of Coleman and very well known throughout The Pass, will be in charge of the institution. Capt. Porter has had an extensive experience in the practice of his profession. The sanatorium will of course be under Major Daniels, who is the officer commanding this unit of the military hospital commission's command, and who will have all branches of the work under his administration in this district. Lieut.-Col. Thompson, who put the deal through, is quite satisfied that the new sanatorium will come up to the best expectations.

Look Here

Only two more weeks to clear out six or seven hundred dollars of our stock. Come and pick out what you want. No reasonable offer will be refused.

Two Houses, 4th street, \$500 cash takes the two. This is less than the price of one.

Two lots in East Coleman for \$85. Clear title.

One good lot and two storey building, 4 rooms upstairs, good place for firewood business, stables or blacksmith shop, cesspool on the lot cost \$75 to put in. \$800. Building is worth this alone. Clear title.

One lot, absolutely one of the best stands on Main street, with store 47 x 23, 4 living rooms upstairs, cellar 45 x 20, good barn at back. Will sacrifice at \$2,300 cash or will lease at \$50 per month to reliable tenant. Clear title.

Three horses for sale at \$50, \$75, \$100. These horses are reliable and true in every sort of work and will not wander away from town.

A. E. Knowles

TOO LITTLE BLOOD MEANS MUCH MISERY

That is What Makes People Pale, Weak and Languid.

The one source of most of the misery that affects men and women and growing children, is poverty of the blood. If you feel that a doctor has said you are anemic, which really means bloodless. That is what makes people drag along, always tired, never real hungry, often unable to digest their food, breathless after the slightest exertion, and too often on the verge of complete breakdown.

More weak, anemic people have been made strong, energetic and cheerful by taking Dr. Williams' Pink Pills than by any other means. These pills actually make new, rich blood which reaches every part of the body, strengthens the nerves and brings new health and strength. The following is proof of Dr. Williams' Pink Pills to restore health. Mr. Geo. T. New Haven, N. S., says: "I don't doubt to constant hard work I got in a badly run down condition. It took every little exertion to tire me, and my appetite was far from being good. Often I had headache, and when going up stairs, or after any slight exertion my heart would palpitate violently, and I grew considerably alarmed about my condition. I decided to take Dr. Williams' Pink Pills and after using a few boxes I felt much better. I continued using the pills for some time, and they completely cured me. I can warmly recommend this medicine to men who are weak and run down."

You can get these pills through any medicine dealer or by mail, post paid, at 50 cents a box, or by mail for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Forestry Farms

Changing the Treeless Prairie Into a Park-Like Country

"Saskatchewan requires more Forestry Farms. Then there would be at least two lectures continuously on the road to hold meetings, giving lectures on forestry, shelter-belts, etc. The gospel of tree-planting should be brought to farmers. The lectures could take the names and locations of farmers who are anxious and ready to plant trees, send in the lists to the head office in the province, and inspectors should be sent out to examine each farm, so as to advise farmers where to plant, and how to prepare the ground for the following year's planting. It is all right to expend money on the general Conservation Commission to outline citizen the Dominion over on what our natural resources are and how they should be conserved, but the practical working end of the problem should not be neglected. Give Saskatchewan forestry farms and practical advice to meet progressive farmers, and in a few years the treeless, wind-swept prairies would be changed to a park-like country, with trees on every farm."—Saskatchewan Farmer.

Foe Ships in American Harbors
There are eighty-eight German and twelve Austrian ships in American ports with a total net tonnage of 308,479, lying idle and waiting for the war. The merchant ships may leave when they like, but warships must remain till the German fleet is destroyed. The reason why none of the merchantmen leave port is because the Allies maintain an effective patrol outside the three mile limit.

Capital of Portugal
Lisbon, the capital of Portugal, has a population of about half a million. Its harbor is one of the finest in the world, and large enough to hold all the navies of Europe. The greatest earthquake on record occurred at Lisbon when, in 1755, in less than ten minutes, the greater part of the city was made a heap of ruins and from 30,000 to 40,000 persons killed.

Defeat
What is defeat? Nothing but education, nothing but the first step to something better.

In this Matter of Health

one is either with the winners or with the losers.

It's largely a question of right eating—right food. For sound health one must cut out rich, indigestible foods and choose those that are known to contain the elements that build sturdy bodies and keen brains.

Grape-Nuts

is a wonderfully balanced food, made from whole wheat and barley. It contains all the nutrients of the grain, including the mineral phosphates, indispensable in Nature's plan for body and brain rebuilding.

Grape-Nuts is a concentrated food, easy to digest. It is economical, has delicious flavour, comes ready to eat. It has helped thousands in the winning class.

Conscientious Objectors

Various Ways to Use in the War Those Who Object to Carrying a Rifle

The New York Times says: Recent talk about the possibility of a war out of which this country will not keep or be kept has revealed the existence here of people who have or profess conscientious scruples in doing their part with other citizens in a contingency and sharing the common risks. There is interest for us, therefore, in knowing what countries try with the same problem has handled it.

The English have shrewdly decided that scruples against fighting to be conscientious and deserving of recognition to be sincere, that is, and not a mere cloak for cowardice or treason—must have been entertained and expressed for some time before the war began. The Quakers, Plymouth Brethren, and others who can meet that test are excused from becoming out-and-out soldiers, serving in the trenches, but they are not let off altogether. They are conscripted as other people are, and they have to use the spade instead of the rifle.

Curiously enough, it seems to satisfy their delicate consciences, and apparently they fail to realize that the work they do is just as much a part of war as that of anybody else who is engaged in it, and that it has a very direct bearing on the deaths of the German or other soldiers who try to take the trenches they dig. Indeed, it is reported they are proud of the fact that though they do not kill, they themselves do not infrequently take their work under fire, and that their lives are by no means safe.

It is to be hoped that our own conscientious objectors will be equally illogical and inconsistent when their time of trial comes, if ever it does. At any rate, the British solution of the problem is well worth keeping in mind, for even if it should tend to increase the membership of sects of the religious-pacifist sort no great harm will be done. Modern war needs the service of as many civilians or non-combatants as of men taking part in the actual fighting, and those thus engaged are as honorably employed as are those in the trenches. Of course, they haven't the same opportunities of acquiring glory and do not share the stern joys of battle.

Minard's Liniment Co., Limited.
Dear Sirs:—This fall I got thrown on a fence and hurt my chest very bad, so I could not work and it hurt me to breathe. I tried all kinds of liniments and they did me no good. One bottle of MINARD'S Liniment, warmed on flannels and applied to my breast, cured me.

Rosaway, Digby Co., N. S.

Meat Production

In the United States between 1900 and 1912 the population increased 30 per cent, while cattle decreased 30 per cent. In Russia, Argentina and Brazil there were also decreases. In France, Germany and the United Kingdom, and Austria-Hungary there were slight increases, but only in France at the same rate as the population. In Australia alone was there relatively a greater growth in the number of cattle than of people. In Canada the population during the period mentioned increased 35 per cent, but in cattle only 30 per cent. These facts show the importance of the opportunity that lies before Canada in the breeding of cattle. The same state of things exists, only in a more emphatic way, as regards sheep, and even as regards swine. The situation last year was one of extreme scarcity in this country.

It Will Cure a Cold.—Colds are the common ailments of mankind and if neglected may lead to serious conditions. Dr. Theobald's Oil will relieve the bronchial passages of inflammation speedily and thoroughly and will strengthen them against subsequent attack. And as it eases the inflammation it will stop the cough because it allays all irritation in the throat. Try it and prove it.

The area planted to corn in Manitoba increased from 29,450 acres in 1914 to 52,713 acres in 1915, according to the official crop report. In view of the damage done to the crop by frost, the report makes this comment: "While the condition in 1915 cannot fail to create disappointment among farmers regarding corn, this crop is so firmly established in many of the older districts that it will continue to increase in popularity. In view of the unfavorable season for corn growing, there is every reason to warrant our confidence that this crop is still one of our most profitable food crops."

Farming is not a mere occupation. It is a business, a study, one that requires brain work. The same old kind of brain work that was needed to put one in shape for the school examination. This is the kind of work that makes farming successful.

Minard's Liniment Cures Garget in Cows.

A Back Door Dodge
When German meat men came the tug of war. The butchers of Cologne do not at all care for the State organization of meat supplies. One enterprising son of "Kultur" secreted five tons of meat in his premises and sold it to "good customers" at the back door. When faced with the discovery, the wily butcher pointed to the regulations which specified that the restrictions only applied to meat sold over the counter. The law has been made more specific.

Convoys (entering office): "I've an attachment for your typewriter, sir which I—" Busy Man: "Well, settle it with her. Your love affairs are no concern of mine."

They All Went Away Together

P. A. BONNOT'S RHEUMATISM CURED BY DODD'S KIDNEY PILLS

And With It Went All These Symptoms Which Mark the Earlier Stages of Kidney Trouble.
"Grant Clairiere, Man., (Special.)—All persons who suffer from rheumatism should know the value of Dodd's Kidney Pills. This is the statement volunteered by Mr. P. A. Bonnot, a well-known resident of this place. Asked to give the reasons why Mr. Bonnot said: "I suffered for three years from rheumatism. I consulted a doctor without getting any results. Four boxes of Dodd's Kidney Pills fixed me up."

That rheumatism is caused by sick kidneys failing to strain the uric acid out of the blood was again shown in Mr. Bonnot's case. His earliest symptoms were: heart fluttering, broken and unrefreshing sleep, titillating, a great nervous feeling, a heavy, aching, neuralgic and back ache.

When he cured his kidneys with Dodd's Kidney Pills the rheumatism and all the other symptoms of kidney trouble disappeared.

Hudson Bay Railway

Will Shorten Haul to Tide Water and Open New Lands for Settlement

The Hudson Bay Railroad, which has its northern terminus at Port Nelson, will shorten the haul of grain from the wheat-fields of the west to the Atlantic ocean by over a thousand miles. And the total distance between the prairie farms and European ports will not be increased.

This, of course, is the chief object in building the road. But it will also serve another purpose, that of opening up a new territory for permanent settlement. Peasants tell us that this country is not suitable to permanent occupation, that it is cold and barren, with nothing to entice the pioneer to live within its borders. We were told much the same regarding other parts of the Dominion which are now looked upon as veritable gardens of fertility. The Peace River district may be mentioned as an example.

We are told that the country opened up by the new railroad has frost every month in the year, with the possible exception of July. This may be a serious handicap to successful farming operations yet we must remember that in the prairie provinces last year there was not one month in which frost did not occur. Yet in the same year 1,000,000 bushels of wheat were grown during the season. Also the Yukon district is said to produce vegetables as fine as any to be seen in other parts of the Dominion, and it lies well to the Arctic circle.

There seems to be no reason to doubt that a large local trade will be established along the Hudson Bay. The forests contain valuable timbers, which in addition to furnishing material for export, will prove a boon to the pulp and allied industries of Canada. Again, it is a country of great mineral wealth, which when once opened up, will lead to further and further development in the Dominion. The fact that, with the rivers and lakes teeming with fish, the Hudson Bay will be another source of wealth.

When we read the reports furnished by the topographical survey for 1914 and also the reports of those who either for pleasure or for business, have visited this now little known territory, we fail to see how anyone should or could be doubtful regarding the advisability of opening up the country.

Choked for Air. Some little irritant because lodged in the bronchial tubes, causes others, and the worst of asthma results. Nothing offers quite such quick and positive relief as Dr. J. D. B. Ross's Asthma Remedy. It is a healing, soothing smoke or vapor penetrates, clears the passages and gives immediate relief. It is a complete cure. It has behind it years of success. It is the sure remedy for every sufferer.

Taxicabs of the Air
By so much of practical preparation as lies in the formation of an operating company, the signing of a contract with a manufacturer and the search for a riverside barge site, the dream of an aeroplane passenger service to, from and about New York has advanced toward fulfillment. We are invited to contemplate tentatively the idea of taxicabs which shall come flying instead of wheeling at our call.

Presumably it will be a long time before this transit scheme shall reach the state of complete working foreseen by the men with the vision. In the immediate future the man of affairs run his own flyer from Suburbia to his office or the man of pleasure take his evening to enjoy an altitudinous roof-garden without troubling about the lower floors and the elevator. As to that part of the new company's plan which involves service between New York and such cities of easy reach as Boston, Philadelphia, Baltimore, Washington—why not—New York World.

Minard's Liniment Cures Distemper.

The Kaiser—The Voice of God
Major-General Sir A. E. Turner relating some stories about the Kaiser—(for the accuracy of which he vouches)—tells us how the Kaiser was regarded by some of those around him as may be gathered from the scene which followed a celebrated speech. When he had finished his bombastic and silly oration, we are told that "an old white-headed general, von K., even knelt before his Majesty to kiss the hand that was gracefully extended to him," and with deep emotion he cried: "It is truly the voice of God that has spoken out of your Majesty as His worthy instrument to destroy this nightmare of British supremacy at sea, from which Germany has suffered all these years—and God's will be done!"

Calculating Cows

Statistics Prove That Cow Testing Pays for Its Trouble Many Times Over

In virtually any dairy district, probably among the herds supplying one factory, it is possible to find contrasts running something like this: one herd of 14 cows gives on the average 7,702 lb. milk and 248 lb. fat, while a neighbor's herd of 14 cows averages only 4,037 lb. milk and 185 lb. fat. Indeed, in looking over the records in eleven districts, the average difference between the high herd averages and the low ones amounted to 4,630 lb. milk and 140 lb. fat per cow. This is certainly an extraordinary difference, and indicates that it will pay to calculate what cows can do.

To smother this difference, in 1914, sixty patrons of two creameries began this cow calculation, cow testing. It was found in 1915 that their herds had made a gain over their 1913 record of 71 pounds of fat per cow, a gain of eight per cent. But on the other hand the 1913 patrons of the same two creameries who did not go in for cow calculations fell off 87 pounds of fat per cow, seventeen per cent.

If the men not cow testing had made gains with their cows in the two years as the men who were testing, it would have meant an increase in the output of 58,302 pounds of butter.

It pays to test. Record forms are furnished free of charge on application to the Dairy Division, Ottawa.

The Liquor Act

Chapter 4

Province of Alberta

1916

The attention of the general public of the Province of Alberta is directed towards the following provision of the LIQUOR ACT.

Section 24. No person within the Province of Alberta by himself, his clerk, servant or agent shall have, keep or give liquor in any place whatsoever, other than the private dwelling house in which he resides, except as authorized by this Act.

And also to the following provisions of "An Act in aid of Provincial Legislation prohibiting or restricting the sale or use of Intoxicating Liquors," being chapter 19 of the Dominion Statutes of 1916, commonly referred to as THE DOWRY ACT.

Section 3. Everyone is guilty of an offence and liable on summary conviction to a penalty of not less than fifty dollars and not exceeding two hundred dollars, or to imprisonment for six months, or to both fine and imprisonment, who—

(a) sends or ships by any public conveyance to any place in which the sale of intoxicating liquor is prohibited, any package containing intoxicating liquor not plainly labelled so as to show the actual contents of such package, and the name and address of the consignor thereof; or

(b) sends or ships by any public conveyance any package containing intoxicating liquor, addressed to a fictitious person, or addressed otherwise than to the actual consignee of such package; or

(c) being a common carrier or the servant or agent of a common carrier or of any Government railway, or steamship, whether Dominion or Provincial, knowingly receives for conveyance, carries or makes delivery of any such package; or

(d) knowingly takes delivery from any common carrier of any such package.

F. G. FORSTER, Chief Inspector.
Edmonton, July 23, 1916.

Synopsis of Coal Mining Regulations

Coal mining rights of the Dominion, in Alberta, Saskatchewan and Alberta, in the Northwest Territories and in a portion of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. The lease will be issued to one applicant.

Application for a lease must be made by the applicant in person to the agent or sub-agent of the district in which the rights apply, or to the agent or sub-agent of the district in which the rights apply, or to the agent or sub-agent of the district in which the rights apply.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the agent with sworn reports, accounting for the full quantity of merchantable coal, oil, gas and other minerals, and shall pay the royalty thereon. If the coal mine is not being operated, such reports should be furnished at least once a year.

The lease will include coal mining rights only, but the lessee may be permitted to purchase and operate any surface rights and other minerals necessary for the working of the mine at the rate of five per cent.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of the Dominion Lands.

W. W. CORY, Deputy Minister of the Interior.
N.B.—Unauthorized publication of this advertisement will not be paid for.

Two houses for sale, 4 rooms, almost new, \$250 each cash. This is not the price of the lumber in either of them, but at \$10 a month. Two lots for sale in East Coleman, \$65 cash for the two. One good safe, cost \$120, good as new, \$60. A. E. Knowles.

Notice to Holders of Lien Notes and Hire Receipts

The attention of the public is directed to the amendments made last Session to the Ordinance respecting Hire Receipts and Conditional Sales, whereby in order to preserve the rights contained in Lien Notes and Hire Receipts renewal statements have to be filed in accordance with the provisions of said amendments.

JOHN D. HUNT, Clerk Executive Council

SEALED TENDERS: address to the undersigned, and endorsed "Tender for Drill Hall, Calgary, Alta." will be received at this office until 4:00 P.M., above mentioned Drill Hall at Calgary, Alberta.

Plans, specification and form of contract can be seen and forms of tender obtained at the offices of Mr. Leo Dowler, Resident Architect, Calgary, Caretaker of Post Office, Edmonton, Alberta, Mr. Matthews, Resident Architect, Winnipeg, Man., Postmaster, Brandon, Man., and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10%) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender is not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender. Note—Blue prints can be obtained on application to the Department of Public Works, Ottawa, by depositing an accepted bank cheque for the sum of \$5.00, made payable to the order of the Honourable the Minister of Public Works, which will be returned if the intending bidder submit a regular bid and return the prints to the Department. By order.

I. C. DESROCHERS, Secretary.

Department of Public Works.
Ottawa, July 6, 1916.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

NOTICE

In the matter of the court of Confirmation of the Tax Enforcement Return of the Town of Coleman, in the Province of Alberta.

Take notice that His Honour Judge McNeil, Judge of the District Court of the District of Macleod, has appointed Thursday, the 19th day of October, A.D. 1916, at the County Chamber, Coleman, at the hour of 11 o'clock in the forenoon, as the time and place for the holding of the Court of Confirmation to confirm the Tax Enforcement Return of the Town of Coleman.

Dated at Coleman this 5th day of July, 1916

JAMES FORD, Secretary-Treasurer of the Town of Coleman.

SYNOPSIS OF CANADIAN NORTH-WEST LAND REGULATION.

The sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency), on certain conditions.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Prices \$3.00 per acre.

Duties—Six months residence in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent on certain conditions.

A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price, \$3 per acre. Duties—Must reside six months in each of three years; cultivate 50 acres and erect a house worth \$300.

The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

W. W. CORY, C.M.G., Deputy of the Minister of the Interior.

LOCAL AND GENERAL

Special dinner at the Coleman hotel at 5.30 on Sunday.

Capt. Porter, M. D., was in town for a short time on Thursday.

D. Davies has been appointed manager of the International mine.

Frank Graham made a business trip to Lethbridge on Saturday.

Things to worry about: The teaching staff spending the week-end at Crows Nest.

Miss C. Disney, of Beaver Mines, is spending a short vacation at her home here.

A number of boys were fined this week for taking vegetables from Wm. Evans' garden.

Const. Potter has been transferred to Landbreck. He is succeeded here by Const. Uffelman.

Miss McKery and Miss McDonald, of Fernie, who were guests of Mrs. McKeagan, have returned home.

H. T. Watts, of the bank staff, is being transferred to Relnav. J. M. Treleaven, of Milk River, comes to Coleman.

Piper James Moore of 113th battalion, Sarcee Camp, was the guest of his sister, Mrs. M. Brennan, on Saturday and Sunday.

Chief Ford has lost a bay horse, white hind feet and white face, weight about 1,050 lbs. A reward is offered for its return.

The Misses Anderson, of Chicago, who have been the guests of their sister, Mrs. Fansett, for several weeks, have returned home.

A ten cent tea will be held at the manse on September 13th, in connection with the Women's Missionary Society. Everybody welcome.

Lord Bishop Pinkham, of Calgary, will hold a confirmation service in St. Alban's on Sunday evening, September 17th. Further announcement later.

Geo. Chair and family, who left in July on a motor trip to Vancouver via Great Falls and Glacier Park, arrived safely at their destination after a very pleasant trip.

The Canadian national exhibition, opened at Toronto on Monday, has been designed to symbolize the unity of the allies against the military menace of Prussia. The exhibition was opened by Sir George Perley and the attendance already assures its success. A feature of special interest to westerners is the excellent exhibit made by the Canadian Pacific railway, showing the agricultural, mineral, timber, fisheries and fur-bearing resources of Canada, particularly of the Western provinces.

The editor dropped into the Coleman hotel the other evening for the purpose of surrounding a good square. We accomplished our purpose. Incidentally we noticed that the majority of the old guard were back again, as well as many new boarders. McKen Hunter still holds down the chair at the south-west corner of the dining room and seemed to be thoroughly enjoying himself. We understand Mack has been occupying that chair for empty umpt years, in fact for so long a period that one feels quite sure there must be warps on the seat of the chair. But what we started out to say was that the Coleman hotel now puts up a good meal, and the service is efficient and satisfactory. No matter how prohibition may be affecting hotel accommodation in other towns, it can now be truthfully said that Coleman has one of the best hotels in the country--much better than we had before the big drought set in. It should be well supported.
